

ABSTRACT OF THE DISCLOSURE

5 A cash register alarm system for sounding an alarm to the
police without delay. The cash register alarm system includes a
cash drawer having a bottom wall and a back wall, and also
includes a tray having a bottom wall and a back wall and plurality
of partitions spaced apart and forming compartments therebetween,
10 and further includes a plurality of sensors disposed in the
compartments in the bottom wall of the tray, and also includes a
plurality of electrical current contact members disposed upon the
back walls of the cash drawer and the tray. More than one
compartment without paper money will expose the sensors to light
15 which will acutate the alarm system to the police.
